## **All of me** (Reinhard Fendrich/Ina Wolf)

I never meant to get close to your fire  
knew I would burn  
you made me prisoner of my own desire  
when will I learn  
we all try to play it safe and while we wait  
it is too late  
the man you're looking at has come a long way  
can't fool his heart  
too many promises don't see the light of day  
games we play are lost right from the start  
yet how far I go your smile is coming through  
and every road leads back to you

you gave me wings to fly  
I'm on an all-time high  
can't stop my heart from dreamin'  
the limit is the sky  
your love has set me free  
no matter what will be  
I got a slice of heaven  
and you got all of me

without your love  
I'm a river run dry  
a child in the dark  
nothing will stop this fire from burning, no  
cause you are the spark  
so this restless wanderin' heart is here to stay  
only a fool would break away

you gave me wings to fly  
I'm on an all-time high  
can't stop my heart from dreamin'  
the limit is the sky  
your love has set me free  
no matter what will be  
I got a slice of heaven  
and you got all of me

and on my search for something better, something new  
every road leads back to you
