Let's make History (Wolf/Frainer/Bonmassar)

here I am, feel my heart overflow
I know the road I've taken
will lead me to the top
it was you, showing me where to go
you gave it all a meaning
not a thing can make me stop
and if we all stick together
we can make it last forever
and the light will shine until the end
so join in, trust in love, take my hand

let's make history, only you and me,
from now on it's all for one and one for all
let us reach out for the sky
there's no mountain too high
let's make history

for too long I've been wasting my time
I tried to do it my way
thought that winners stand alone
every night was lonely and cold
I had no one to talk to
had no place I could call home
you changed my life for the better
all the old clichés don't matter
I will take this chance and never let go
I have prayed, I was heard, now I know

let's make history, only you and me,
from now on it's all for one and one for all
let us reach out for the sky
there's no mountain too high
let's make history

never give up
look ahead, even if times are getting rough
don't ever stop
and when your best still isn't good enough
get back on, try again, and you will win!

let's make history, only you and me,
from now on it's all for one and one for all
let us reach out for the sky
there's no mountain too high
let's make history
let us reach out for the sky
there's no mountain too high
let's make history
